Making — the future

Somebody once said that “the best way to predict the future is to create it yourself”.

That's why here at Viefef® we have one eye on the decorative trends of tomorrow, on the type of interaction people may have with their furniture, on the way accessories are used and how they transform bathrooms, kitchens and bedrooms.

It's about trying to get ahead of ourselves. Making the unexpected possible. Breaking moulds yet maintaining quality and practicality. Asking ourselves about the reasons behind the design of every knob and handle. Surprising customers with new materials. Designers from all over the world help us to achieve these objectives. Their ideas become reality in our areas of manufacture where, since 1932, we have been making the future!

Creando el —— futuro

Alguien dijo que “la mejor manera de predecir el futuro es crearlo”.

Por eso, en Viefef® tenemos la mirada puesta en las tendencias decorativas del mañana, en la interacción de las personas con el mobiliario, en las formas de uso de los complementos y en cómo transforman cocinas, baños y dormitorios.

Se trata de avanzarnos. Hacer posible lo inesperado. Romper con lo establecido preservando calidad y funcionalidad. Cuestionarnos el por qué de cada pomo y tirador. Sorprender con nuevos materiales. Diseñadores de diferentes partes del mundo nos ayudan a conseguirlo. Sus ideas se hacen realidad en nuestros espacios de fabricación donde, desde 1932, damos forma al futuro.

Creant el —— futur

Algú digué que “la millor manera de predir el futur és crear-lo”.

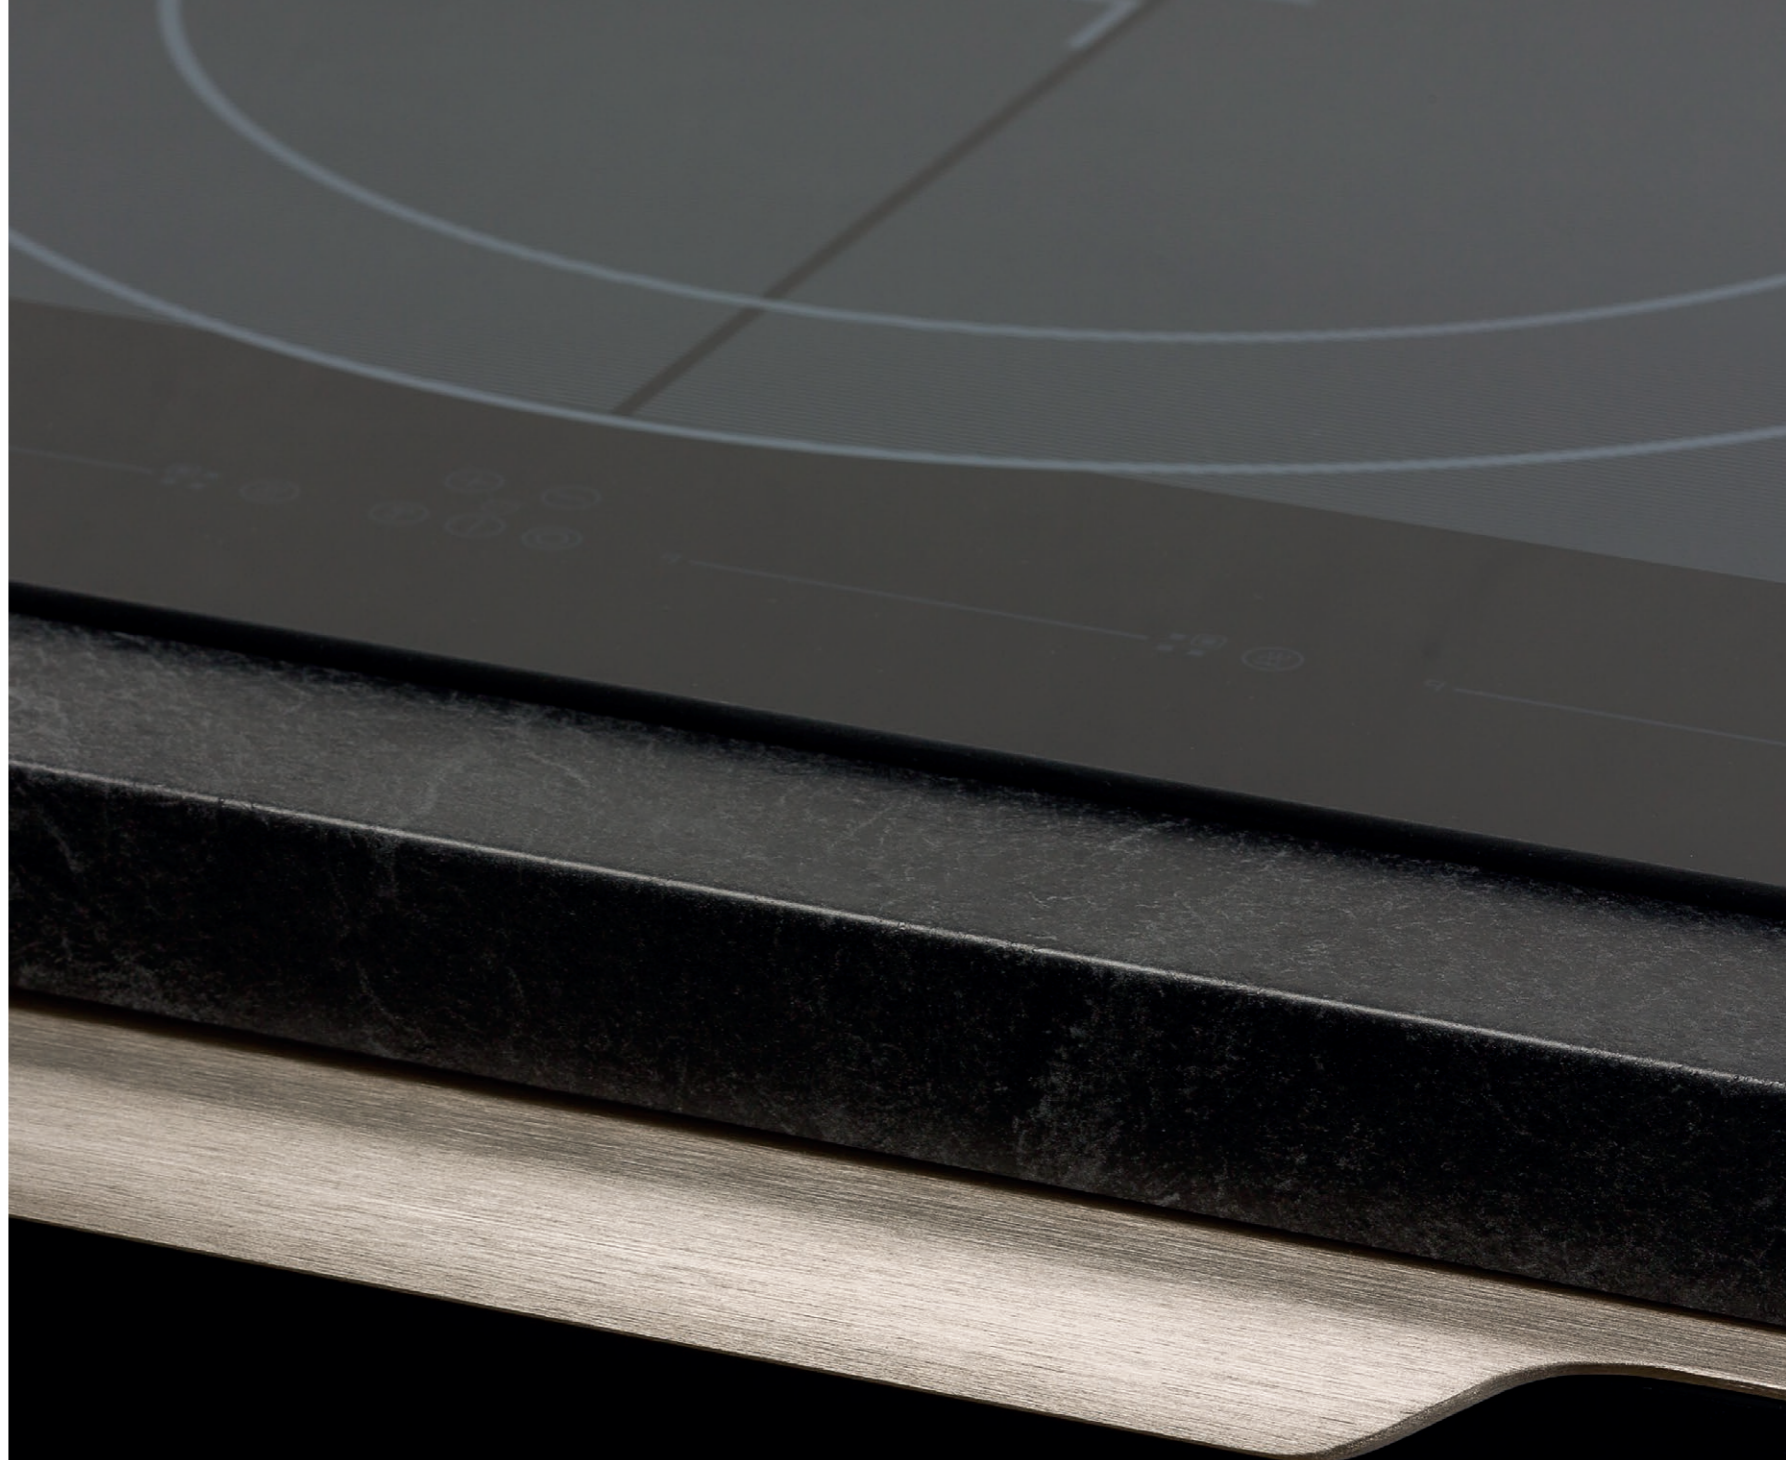

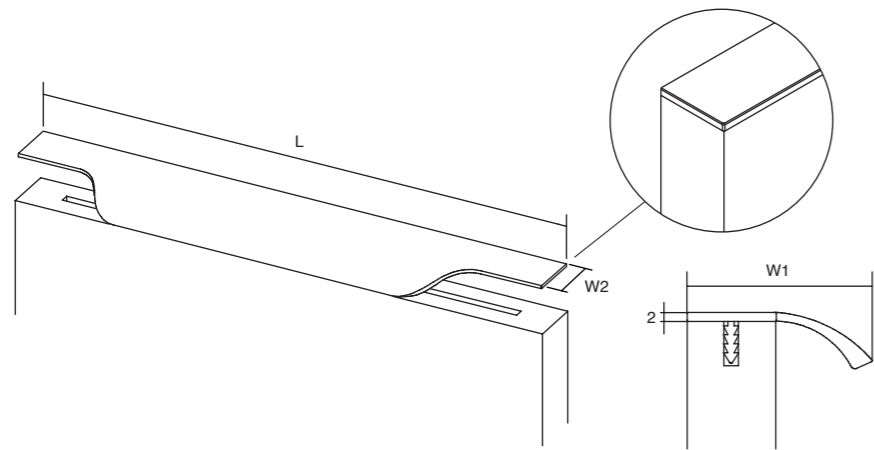

Per això, a Viefef® tenim la mirada posada en les tendències decoratives del demà, en la interacció de les persones amb el mobiliari, en les formes d'ús dels complementos i en com transformen cuines, banys i dormitoris.

Es tracta d'avançar-nos. Fer possible l'inesperat. Trencar amb allò establert preservant qualitat i funcionalitat. Qüestionar-nos el per què de cada pom i tirador. Sorprendre amb nous materials. Dissenyadors de diferents parts del món ens ajuden a aconseguir-ho. Les seves idees es fan realitat en els nostres espais de fabricació on, des de 1932, donem forma al futur.
